# BRAZILIAN FURNITURE

The Brazilian Furniture Project is an initiative of ABIMÓVEL - The Brazilian Furniture Manufacturers Association and ApexBrasil - The Brazilian Trade and Investment Promotion Agency, which aims to increase the competitiveness of Brazilian industry in the international market, through strategic actions of global expansion. Today, about 170 companies take part in the Project, having exclusive access to information on Commercial and Competitive Intelligence, International Fairs and Trade Missions, Buyer and Vendor Projects, among other activities abroad.

- Promotion of Exports and Investments;
- Exclusive access to Commercial Intelligence data.

BY BRUNO FAUCZ

ABIMÓVEL - The Brazilian Furniture Manufacturers Association has been working for over 35 years in the defense, development and strengthening of the interests of the national industry.

The institution promotes a positive agenda for the sector, benefiting more than 18 thousand companies, which generated 273.3 thousand jobs, counting direct and indirect ones, with an estimated production of 421.24 million pieces, exports that exceeded US\$ 938.3 million and investments of R\$ 2.16 million only in 2021.

Numbers that reflect the importance of the furniture industry in Brazil, with the entity making increasing efforts to optimize the business environment, as well as the intelligence and commercial promotion both in the domestic and in the foreign markets.

ABIMÓVEL is committed to the development and sustainability of the furniture sector and the Brazilian industry.

The Brazilian Trade and Investment Promotion Agency - ApexBrasil works to promote Brazilian products and services abroad, and to attract foreign investment to strategic sectors of the Brazilian economy. The Agency supports more than 12,000 companies from 80 different industries, which in turn export to 200 markets. Apex-Brasil also plays a key role in attracting foreign direct investment to Brazil, working to detect business opportunities, promoting strategic events and providing support to foreign investors interested in allocating resources in Brazil.

# FLORENSE

© florenseoficial

[www.florense.com.br](http://www.florense.com.br)

Florense is a family-owned Brazilian company with an Italian heritage that has been specializing in custom cabinetry, room divider doors and unique furniture for 69 years. Florense has distribution in South, Central and North America with more than 60 locations. Florense established a presence in the USA in 2005 offering a complete line of products including kitchens, closets, baths and wall units. You can find Florense showrooms in New York City, Miami and Houston. However our projects spread from West to East coast. At ICFE 2022 we are featuring f53. f53 is a new kitchen concept that innovates the way we live, making the kitchen the true center of the home. f53 challenges our ideas about the kitchen environment, transforming it into a place to gather and to experience new forms of interaction. f53 was design by La Agencia and is named after the year Florense was founded – 1953. Along with f53 we will be displaying our fine kitchen cabinetry.

In the market for 19 years, bringing sustainability with unique and versatile pieces that take with them the quality of noble wood, tradition, Brazilian hospitality and a cause that aims to reduce the disposal of raw materials. One of our missions is the conscious and responsible reuse of our material in order to ensure that future generations do not suffer from a lack of them. This is a company culture that extends from the demolition of the property to the remnants of wood that are released during manufacturing that are also reused. And to do this today we have a structure of more than 3000m<sup>2</sup> in expansion, with a portfolio of customers who also believe in the same values throughout Brazil. Now with the aim of embracing the foreign market and taking our true value to the world, we present one of our most noble woods, Peroba Rosa, which deserves recognition and credibility, for being reused from the manufacture of houses built over 100 years ago. Durability, aesthetics and tradition characterize the reliability of our pieces, because more than in our designs this is in our DNA as a Brazilian company. Made with 100% reused demolition wood, the featured pieces print concepts and shapes that were only possible from the union of projects and qualified professionals for their development. With this in mind, each product undergoes an elaboration with an emphasis on design and ergonomics issues associated with sustainability.

**LAMP SULLA**  
BY NEWTON LIMA

In 2010 Modalle was founded. From our passion for furniture came the desire to be a reference in living area.

Each of our furniture carries a piece of us and says more about experiences than about objects: we think about how our product will provide quality of life to our customers.

With its headquarter in Votuporanga, in the countryside of the State of São Paulo, we have stores that offer our products throughout Brazil and countries in South, Central and North America.

[www.siermoveis.com.br](http://www.siermoveis.com.br)

SIER started as a custom woodworking shop - in Minas Gerais, Brazil - and has evolved over 32 years into a high-tech furniture industry that operates under excellent production management. Creating original, long-lasting products for the high-end market inspires us to continuously innovate. The 64 thousand m<sup>2</sup> factory combines robotic solutions and handcraft tradition, with high production capacity, autonomy, and fast delivery time.

Our creation studio brings together a team of designers and professionals forged essentially on the factory floor, therefore, connoisseurs of good carpentry. This is how we develop dining tables, chairs and armchairs, buffets, bookshelves, and many other pieces of furniture and complements, through annual releases, recognized by their ergonomics, authenticity, and timeless elegance.

The quality of the materials and finishes is another mark of SIER furniture, which counts on our warranty and technical assistance. We serve the whole Brazilian Market and, for 12 years, also the international market, with presence in major design events such as iSalone in Milan and ICFF in New York.

The heart of the house beats in the kitchen, life circulates and everything happens. People meet, share flavors, affections and create unforgettable memories. Between the smell of the cake from grandma's house and the facilities of the microwave, there is the living space that has changed the most in recent decades. In sync with the needs of different styles of families, Itatiaia always reinvents itself and sets trends. Its products bring smart, personalized solutions, provide improvements in the quality of life and a complete kitchen experience.

## EXCLUSIVE KITCHEN

BY ITATIAIA

Founded in 2016, Mundo Móveis specializes in the production of furniture with affordable design, innovation and comfort. Headquartered in the city of Birigui (SP), the company manufactures sofas, dressers, racks, wardrobes and panels and is currently the largest private label in the furniture sector in Brazil, with production of 21,000 pieces per month. The company is still part of the ranking of the five biggest sofa producers in Brazil. The company now has 43,000 m<sup>2</sup> of manufacturing area, divided into three units. There are about 500 direct and almost 700 indirect employees. Monthly furniture production records 12,000 sofa units per month. The compact reclining retractable sofa is the flagship of production today. The company has 93% of the online share of first price retractable. With innovative DNA, Mundo Móveis has the product research and development sector as one of its competitive advantages. In this way, it can combine the design of new products, from market research and agility of production of its factories. Mundo Móveis is a partner and the largest supplier of Mobly, a leading e-commerce in furniture marketing in national territory.
